

## Why will VoiParty succeed and how I can make MONEY today?

Today, there are thousands of Inter-exchange carriers. Names like Covad, Arbinet and XO Communications all exist and all benefit from the Inter-exchange market. They all offer the same service, call termination. (connection of calls)

Voiparty has entered this market with a distinct advantage. Voiparty's advantage is they utilize your local landline and internet to remotely connect calls made from Verizon, Sprint, Bell South, AT&T customers and more. By interfacing the Digital Telephone Poles with our network operation centers, Voiparty can offer the "least cost routing" on these calls. "Least cost routing" is an industry term used to identify the lowest cost to connect a call.

Voiparty plans to capture between 10 - 15% of the 12 BILLION dollars of annual revenue or (\$100 million+ /month) How much of that would you like? Well, get a device and share the simple facts with a few friends and watch what happens.

We will deploy 1.3 million devices across North America. You'll get compensated based on how many devices you helped us deploy. Tell a few friends, help them tell a few friends and watch your network explode! Once the devices are deployed, we move to Phase 3, which will dramatically increase the income of devices in the field.

**ONE-TIME investment: \$249 + s/h**  
**Annual support fee: \$29.95**

### Technical Requirements:

- 1) High speed internet.
- 2) Unlimited local calling plan via a standard landline.

Imagine, getting paid on millions of call connections each and every day from people you don't know all by simply connecting your device and helping a few friends do the same!

Don't miss this unique business opportunity. We only need a limited number of devices locally, so contact me today.

# Tap into a 12 Billion dollar Industry!

## The DIGITAL Telephone Pole is HERE!

**It's like owning a "toll booth" for millions of telephone & cell call connections.**

Automatically earn money 24/7  
with the worlds first and only Digital Telephone Pole.  
***It's like having a "toll booth" for millions of phone calls NATIONWIDE!***

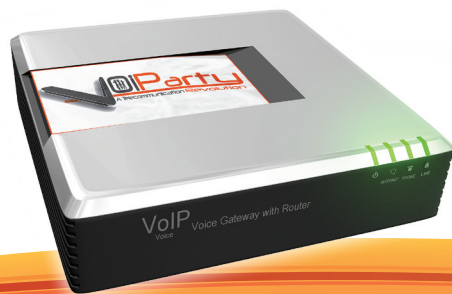

## How do I make money?

- Step 1: Get a device.
- Step 2: Plug it in.
- Step 3: Help one friend do the same.

## How do I make a fortune?

- Step 1: Get a device.
  - Step 2: Plug it in.
  - Step 3: Help 3 friends do the same and duplicate that effort. It is that easy!
- There is a ONE-time investment and NO monthly costs.

The device automatically makes money thanks to the industry's use of least cost routing software. It literally takes 10 minutes to purchase and install the device. Anyone can do this. It is the easiest business EVER!

## Who is Voiparty?

Voiparty is a telecom network infrastructure provider with new technology that no other company has!

*We are NOT a retailer.*

*We are NOT like:*

Magic Jack, Vonage etc...

We earn MONEY on wholesale revenues.

Our IXC partners service carriers such as Verizon, Quest, AT&T and many more. With the support of: Cisco Systems & Level 3 Communications we will explode nationwide! **Will you benefit?**

We earn money on cell phone connections, landline connections and VOIP connections.

## How does Voiparty make money?

Voiparty earns money by connecting calls between major phone carriers like Verizon and AT&T.

## Why do we need you?

Millions of phone calls are routed into YOUR local calling area every month. Calls from all over the world terminate or connect in YOUR local area.

Voiparty's device acts as a gateway to connect these calls much like a toll booth allows you to proceed from one side of the bridge to the other. However, before you proceed, they collect a toll. Our device is that "toll booth" for millions of phone calls every month and all you need to do is plug in the device.

For the FIRST time in history, YOU can earn a share of this income by simply installing a Digital Telephone Pole.
